01 FACULTY OF ELECTRICAL ENGINEERING

02 ABOUT US AND OUR OBJECTIVE

We are a group of students from Cluj-Napoca's Faculty of Electrical Engineering and we converged each other's determination and ideas into this team, which we named Volt-X. We want to make the most of all the years of learning through the projects we will carry out. Our minds will be put to the test, and we will prove our ambition. Not only will we enhance our professional abilities, but also our personal ones. The main objective of the team is to develop complex projects in the field of electrical engineering and thus acquiring other skills related to the process, from organization and teamwork to the deepening of our theoretical and practical knowledge.

MEET OUR TEAM

MÂRZA LUCA
Team Manager

LAZEA MIHAI
Co-Team Manager

HORVATH BOTOND
Dashboard, AUX, Electronics

OROS ANDREI
Head of Mechanics

OCNERU DIANA
Media Coordinator

LEBENIȚĂ CARINA
Graphic Designer

KORMANSZKI ADRIAN
Telemetry & Battery Pack
Coordinator

NĂSĂLEAN ALEXANDRU
Sponsorship Coordinator

GET TO KNOW US

Luca:

Mișu:

Hi, I am from in Gherla, Cluj County. During my childhood, I learned to practice climbing from my father and from him I also inherited a passion for rock music and motorcycles. Around the 8th grade, I was introduced to the field of electrical installations, a domain in which I am currently active. I greatly enjoy travelling and discovering new landscapes.

Boti:

Hello, I chose to study Electrical Engineering because I am interested in electronics, programming, control systems, and electric machines. I am passionate about engineering, technology, and sciences. In my free time, I enjoy reading, taking walks outside or exploring the world by bike. I like learning new things and believe that *"Quality means doing the job well even when no one is watching."*

Andrei:

Hello everyone, I am from Halmeu, Satu Mare County. I chose the Electromechanics specialization because I find electric machines to be one of the most complex topics, and I enjoy a good challenge. I enjoy reading, drawing, playing with dogs, and learning new things.

GET TO KNOW US

Carina:

Hi everyone, I am a creative and hardworking person who is eager to share their ideas. I enjoy creating connections between electronics and art to highlight the beauty of these fields. I love to learn new skills and seize every learning opportunity.

Diana:

Hello, I come from a more distant place, Galați. I decided to go to the Technical University of Cluj-Napoca to follow my greatest desire: to develop as much as possible. As the saying goes, "a learned person is the one who never stops learning," and just like that, I am keen on discovering as much as I can about the technical field and electrical engineering.

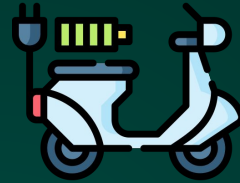

Adi:

Alex:

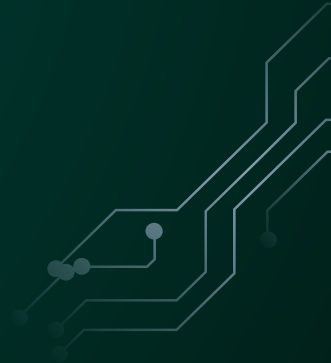

Hello, I am a young individual eager to learn new things and discover myself. I enjoy sports, electronics, and marketing. This is why I chose to study Electrical Engineering, as it offers countless opportunities. I believe every challenge in life is an opportunity to learn and grow.

06 PROJECTS

- **ELECTRIC MOTORCYCLE** – *ongoing project*

- **ELECTRIC AUTOVEHICLE** – *future project*
